

Wenn Sie die Labordatenfernübertragung (DFÜ) nutzen, beachten Sie bitte, dass neue Zuordnungen in Ihrem Arztinformationssystem erforderlich werden können.

| Untersuchung                   | Befundkürzel PCR |         |
|--------------------------------|------------------|---------|
|                                | Neu              | Aktuell |
| Campylobacter spp. DNA         | -                | CAMPY   |
| Salmonella spp. DNA            | -                | SALMO   |
| Shigella spp. / EIEC DNA       | -                | SHIG    |
| Yersinia enterocolitica DNA    | -                | YERENT  |
| Yersinia spp. DNA              | YERSPP           |         |
| STEC / EHEC DNA                | -                | STEC    |
| EHEC stx1 DNA                  | -                | EHEC1   |
| EHEC stx2 DNA                  | -                | EHEC2   |
| Clostridioides diff. Toxin A/B | -                | CLOTAB  |
| Clostridioides diff. Toxin B   | -                | CLOTXB  |
| EAEC                           | -                | EAEC    |
| EPEC                           | -                | EPEC    |
| ETEC                           | -                | ETEC    |
| Aeromonas spp.                 | -                | AEROMO  |
| Vibrio spp.                    | -                | VIBRIO  |
| Astrovirus-RNA                 | -                | ASTRO   |
| Adenovirus-DNA                 | -                | ADENO   |
| Norovirus-RNA GI / GII         | NORO             | noro    |
| Rotavirus-RNA                  | -                | ROTA    |
| Sapovirus-RNA                  | -                | SAPO    |
| Blastocystis hominis-DNA       | -                | BLAHO   |
| Cryptosporidium spp.-DNA       | -                | CRYPTO  |
| Cyclospora cayetanensis-DNA    | -                | CYCLO   |
| Dientamoeba-fragilis-DNA       | DIENTA           | DIFRP   |
| Entamoeba-histolytica-DNA      | ENTAM            | ENHIP   |
|                                |                  | GIARD   |
| Giardia-lambliia-DNA           | -                |         |

| Untersuchung                   | Befundkürzel PCR |          |
|--------------------------------|------------------|----------|
|                                | Neu              | Aktuell  |
| Ancylostoma spp. DNA           | -                | ANCYLO   |
| Ascaris spp. DNA               | -                | ASCAP    |
| Enterobius vermicularis<br>DNA | -                | ENTVERM  |
| Microsporidia DNA              | -                | MSPODNA  |
| Hymenolepis spp. DNA           | -                | HYMEN    |
| Necator americanus DNA         | -                | NECAME   |
